Surgical Tutor Role Description

Job Summary

The Surgical Tutor is an ambassador of the College, a School of Surgery (SoS) advocate for the Intercollegiate Surgical Curriculum Programme (ISCP) and undertakes a key role for the Trust in supporting and demonstrating good governance of surgical training matters.

The Surgical Tutor is responsible for providing leadership to surgical trainees in the Trust. Key roles include supporting and advising the Director of Medical Education (DME) on educational resource issues for surgery in the Trust, and liaising with the School of Surgery via the Core Training Programme Director (TPD), Core Surgical Training Committee (Core STC) and the Specialty Training Committees (STCs) as necessary.

The Surgical Tutor also provides a link to the relevant regional Professional Affairs Board (PAB) where their role is to advise the College Director for Professional Affairs (DPA) of service and educational issues affecting surgeons in their Trust. Surgical Tutors could either be a member of the PAB in their own right, or represent their Surgical Tutor colleagues in the region.

Professionally Accountable to: The College via the Vice President and Lead for Regional Development
Managerially Accountable to: Trust Director of Medical Education
Educationally accountable to: Head of School of Surgery
Term of Office: Initially 3 years, extendable for up to 2 years by mutual agreement

Key Roles & Responsibilities

Support for trainees

- Be available to provide support and guidance to all surgical trainees in the Trust.
- Become an active member of the relevant Core STC and regularly attend such meetings.
- Support the activities of the Core STC including ARCPs, regional teaching, simulation teaching sessions, induction, faculty development and other relevant activities.
- Ensure all trainees have access to local / regional teaching sessions and study leave.
- Identify and support any trainees with differing needs and liaise, where necessary, with the SoS / LETB, appropriate TPD and / or Assigned Educational Supervisor (AES) to help develop training action plans.
- Monitor the number and type of surgical posts within the Trust and their educational opportunities.
- Identify and support trainees in difficulty.
- Liaise with other groups of healthcare professionals who form members of the wider surgical team.

Support for trainers

- Support faculty development so that those involved in educational activities meet GMC / College standards for trainers.
- Utilise ISCP in support of the Trainee / AES relationship.
Advocate for ISCP

- Act as an advocate for the ISCP, ensuring all trainees and their trainers are aware of the requirements of the curriculum, are capable of using the ISCP system and its tools, and have participated in the formulation and assessment of learning objectives.
- Attend Core Surgery induction as necessary and promote the use of ISCP and College services.

College Ambassador

- Promote membership of the College via College examinations, provide education and guidance around the take-up of College educational courses and signpost within the Trust other relevant College services which support surgeons.

Trust Education and Training Lead for Surgery:
(This section to be negotiated and agreed locally with Trusts)

- In conjunction with Clinical Directors, ensure that planning processes within the Trust take surgical educational needs into consideration particularly in relation to access to theatre, clinics and wards, medical staffing, service configuration, waiting lists and bed numbers.
- Represent the interests of Surgery in medical education meetings at the Trust and work closely with those involved in training and education within the Trust including the DME, Postgraduate Centre Manager and Medical Director, as well as consultant colleagues.
- Consider support for SAS surgeons, liaising with the SAS tutors or other local roles where they exist.
- Support QA process including organising / participating in School / GMC hospital visits as required, providing reports and correcting problems highlighted in GMC reports and trainee surveys.
- Coordinate local consultant involvement in national recruitment at both Core and Higher Surgical training levels as required.

Making the links with service

- Attend the College Regional Representative Conferences held each year, and disseminate information on College policy and guidance to Trust colleagues.
- Where appropriate, attend the regional Professional Affairs Board (PAB) meetings to advise the College DPA of service and educational issues affecting surgeons in the Trust / region.
- Engage with the annual (or as required) arrangements for review / assessment of the Surgical Tutor role in the School of Surgery, conducted on paper or by the appropriate panel, as required.
- Work with the College Regional Coordinator, Head of School, DPA and TPDs to ensure that a free flow of information on the full range of surgical matters is disseminated to Trust colleagues.

College Support for the Role

In addition to the annual Regional Representative Conferences (which Surgical Tutors are expected to attend), the College will establish the following mechanisms for ensuring Surgical Tutors feel updated and supported in their role:

- Regional Surgical Tutor forums with opportunities for networking, socialising and information sharing (potentially organised around other events such as Core STCs / PABs etc.).
- Dedicated Surgical Tutor induction and educational sessions at the College, linked to regional representative conferences.
• Attendance at the College’s Educational Leadership Programme for Surgeons (ELPS) is strongly recommended for all Surgical Tutors. The Programme includes two days of face-to-face training at the College. Details of future dates can be found on the College website: www.rcseng.ac.uk/courses. Costs are to be covered by the individual.

• Dedicated online resources to support improved two-way communication between the College and the Surgical Tutors including regular updates of the Surgical Tutor Handbook.

The Surgical Tutor role is a partnership between the College, the Trust and the School of Surgery and as such this role description should be negotiated with the relevant Trust DME in advance of any appointment. The role description is a guide to the range of responsibilities and may be subject to change in accordance with national, Trust or School of Surgery objectives.

Appointment Process

The Surgical Tutor role is the subject of local negotiation but based on a number of key principles:

• A Surgical Tutor must have an established or honorary consultant appointment in the NHS and must be a Fellow of the College. Where a Surgical Tutor appointed through a properly constituted appointments panel is not a Member or Fellow of the College, the College will offer the Surgical Tutor ad eundum Fellowship of the College and will waive the fee for the period of the appointment. Where a vacancy exists, this will be advertised to all consultants in the hospital / Trust in liaison with the Regional Coordinator.

• The interview panel should consist of the Trust DME or equivalent, Head of School of Surgery (or deputy), and a College representative (this can be the DPA, the Regional Council Member and / or the Regional Coordinator, but at least one must be present).

• If required, a representative of the surgeons in the Trust and / or the Medical Director could be included on the panel. The panel will be convened by the College Regional Coordinator in conjunction with the Trust.

• After due process the College will formally appoint the Surgical Tutor and this will be ratified by the College Council.

• Time must be available within the job plan to support the role and should be negotiated with the relevant Trust’s DME in advance of the appointment process. The College recommends that one SPA is allocated to this role. Applicants should discuss this with their Clinical Director and / or the Trust’s Medical Director before submitting an application.

Commitment to the surgical tutor role

The College requires Surgical Tutors to carry out their duties as set out in the role description, and acknowledges their dedication and value within the workplace. The College is committed to providing continued support for this role via the Regional Coordinators and DPAs.

In some cases, there may be issues within the workplace that make it difficult for the Surgical Tutor to allow sufficient time for the role. This could be due to lack of SPA time or other conflicting professional commitments that make it difficult to attend external events or meetings. If you are in a situation where you feel that you cannot fully undertake the role, please speak to your respective Regional Coordinator as soon as possible for advice, who will also be able to explain options available to you, such as appointing a deputy.

The College is committed to having Surgical Tutor representation in all trusts and will endeavour to ensure all Surgical Tutors are fully supported.
