- DAY 2: Practical cadaveric workshops; Fractures & Ligament reconstruction

# **Applicants**

 CT1-ST4 in Plastic or Orthopaedic surgery

## **Course Directors**

- Mr Jamil Ahmed
- Mr Sam Gidwani

### **Course Fee**

• £600

Our Hand Trauma course is highly interactive, hands-on, and is structured to meet the training needs of surgeons in Plastic or Orthopaedic Surgical training. Participants will learn surgical techniques relating to hand trauma including tendon repair, flap reconstruction & bone fracture fixation. The course format includes practical skills sessions using fresh frozen cadavers, which are well preserved and closely simulate the clinical situation. With a faculty:participant ratio of 1:2, this course represents excellent value for money

For further details please check our course website www.handcourses.wix.com/1

Course approved by Royal College of Surgeons

# **Faculty**

Our faculty members are all prominent & experienced hand surgeons

#### Venue

King's College London Guy's Campus Hodgkin Building London, SE1 9RT
